

Supporting Grégoire Group

07/03/2007

Grégoire Group has teamed up with private equity fund ING Parcom PE prior to embarking on the next phase in its development.

Grégoire Group is a key player on the industrial joinery market for the homebuilding industry. The Group is one of the few in the sector to manufacture in all three main materials (wood, PVC and aluminium), and realises annual sales of close on €100 M.

The deal between ING Parcom PE and the Grégoire family, which owns some 40% of the MBO holding company, was partially financed by mezzanine term loan provided by Capzantine.
